

## High School Science and Math Teacher

### Company Description

CIHA is a unique campus, where the students participate in an integrated hockey and academic program. Students come from all over the world to develop their hockey skills and at the same time receive an excellent education.

Our primary focus is to enhance academic achievement to prepare all students for university and beyond. Here at CIHA, we tailor the curriculum to the individual student, not the other way around. By taking into account each student's learning style and extra-curricular responsibilities, we are able to customize a plan unique to the individual.

### Role Description

This is a Monday through Friday on-site role for a High School Science & Math Teacher at CIH Academy, located in Rockland, ON. The teacher will be responsible for planning and delivering engaging and educational lessons in Grade 9 & 10 Science and G11 Math assessing and evaluating student performance, and fostering a positive and inclusive classroom environment. Additional responsibilities include creating lesson plans in alignment with curriculum standards, providing individual support to students, and maintaining open communication with parents and colleagues to support student success.

### Qualifications

- Expertise in Science & Math instruction, including curriculum planning and lesson delivery
- Strong skills in assessment, evaluation, and providing constructive feedback to students
- Ability to create an inclusive, engaging, and supportive learning environment
- Effective communication and collaboration skills with students, parents, and colleagues
- Organizational and time-management skills to handle multiple tasks and priorities
- Bachelor's degree in Education or related field; teaching certification or licensure is preferred
- Prior teaching experience in Science & Math at the high school level is preferred
- Commitment to continuous professional development and staying updated on educational trends
- An understanding of diverse learning needs and strategies to support individual student growth

### About the Role:

- Start Date - As soon as possible

- Small classrooms with an average of 10-15 students: enhanced student engagement & interactions; less administrative work (i.e. report cards, marking)
- Academic calendar: Semester 2 from Jan - Mid May
- Educate students focused on academic success and with strong parental support
- Autonomy for your individual teaching structure and style
- Supportive colleagues and leadership
- Dynamic hockey campuses with a unique building, atmosphere & learning environment
- Ability to coach hockey, while not required is an advantage

Only candidates already living and eligible to work in Canada will be considered.

Interested candidates are asked to submit their resume directly to the principal - [skelly@cihacademy.com](mailto:skelly@cihacademy.com)
